

# AFFILIATE+ BENEFITS

Affiliate+ is a new, exciting enhancement to our Affiliate program providing easy access to in-depth, high-value, leading-edge facility design research, strategies and tools that improve health outcomes and reduce healthcare costs.

In addition to all of the benefits provided through our regular Affiliate program, Affiliate+ member organizations receive:

- Exclusive information, tools and resources to help solve today's most pressing healthcare design issues.
- Additional discounts on publications, multimedia, EDAC certification, learning & networking events, and services.
- Greater visibility for your organization and its support of The Center and its mission.

## Exclusive Affiliate+ Benefit Access to Extensive, Topic-Focused, Solution-Driven Toolboxes.

- 1 Each toolbox contains a library of newly-created and Center staff-curated content—research findings, expert insights, strategies, tools and other useful resources.
- 2 Access via our website for use by your entire organization.
- 3 Approximately four to six healthcare design topic-focused Toolboxes will be released each year; first year topics include:

Noise  
Healthcare Reform  
Communication  
Infection Control  
Perception of Cleanliness  
Patient-Centered Medical Home  
Technology  
Population Health  
Emergency Department Throughput  
Impact of Aging

- 4 While the number and types of Toolbox resources will vary by topic, each Toolbox will typically contain most or all of the following:

**Issue Briefs & Executive Summaries** – learn about the baseline of knowledge available to inform your understanding of specific topics.

**Case Studies (3+ per topic)** – read stories and lessons learned from healthcare organizations who are working to improve patient and staff outcomes.

**Interviews (3+ per topic)** – learn design strategies and other lessons from topic experts.

**Blogs** – informal discussions of key healthcare design issues.

**Infographics** – visual representation of key healthcare design topics.

**Design Strategies** – simple lists of design strategies and evaluation ideas.

**Lessons Learned** – concise summaries of key takeaways from expert interviews.

**Webinars** – on demand or live, featuring expert insights, case studies and more.

**Assessment and Planning Tools** – self-administered instruments to help evaluate needs and opportunities.

**Industry Resources** – learn about what others in the industry are doing about the pressing issues in healthcare today.
